

SEBI Grade A Reasoning Previous Year Paper 2020-2025

#beexamready

Preface

Dear Students,

We are pleased to present this recollected question paper with answer keys for the **SEBI Grade A Reasoning Ability** subject, covering the past six years **from 2020 to 2025(Exam held 4 times)**. This document has been meticulously prepared to serve as a valuable resource for candidates preparing for the SEBI Grade A Phase 1 Exam.

By practising questions that have been actually asked in the examination, aspirants can gain clarity on the **exam pattern, difficulty level, and types of questions** likely to appear in the upcoming exam.

We wish you all the best in your exam preparation journey and hope that this document serves as a valuable asset in strengthening your performance and confidence.

SEBI Grade A 2020 Phase 1 - Reasoning Recollected Questions

Reasoning

Directions (1-2): Study the following information carefully to answer the given questions.

Point B is 12 m South of Point A. Point C is 24 m East of Point B. Point D is 8 m South of Point C. Point D is 12 m East of Point E and Point F is 8 m North of Point E.

Q1. If a man has to travel to Point E from Point A (through these points by the shortest distance), which of the following points will be pass through first?

- A. Point C
- B. Point D
- C. Point F
- D. Point B
- E. None of these

Q2. If a man is standing facing North at Point C, how far and in which direction is Point F?

- A. 12 m, West
- B. 24 m, East
- C. 12 m, East
- D. 24 m, West
- E. None of these

Directions (3-4): Do as directed in each of the following questions.

Q3. Twenty percent of all energy consumed in the country is consumed by home appliances. If appliances that are twice as energy-efficient as those currently available are produced, this figure will eventually be reduced to about ten percent.

The argument above requires which of the following assumptions?

- A. Home-appliance usage would not increase along with the energy efficiency of the appliances.
- B. It would not be expensive to produce home appliances that are energy-efficient.
- C. Home-appliance manufacturers now have the technology to produce appliances that are twice as energy-efficient as those currently available.
- D. The cost of energy to the consumer would rise with increases in the energy efficiency of home appliances.
- E. None of these

Q4. Kapil has twelve years of typing experience behind him; therefore, if you are looking for an efficient typist to enter your data into the new system, you need look no further.

The speaker assumes that:

- A. Twelve years of practice ensures typing efficiency
- B. The type of typing required for the new system is identical to what Kapil has been doing
- C. Kapil's job profile is the best that the new employer is going to get
- D. Kapil is an outstandingly fast and accurate typist
- E. Kapil will fit well into the new office

Directions (5-9): Study the following information carefully and answer the questions given below:

There are six members V, U, T, A, B, C in a family, among them only two are married couple. All of them have liking different numbers i.e. 10, 11, 12, 16, 14, 21 (but not necessarily in the same order).

V, U and T are seated in a circle facing the centre. A, B and C are also seated in the same circle but two of them are not facing the centre (facing opposite direction of the centre). 11 number is liked by B. V who is son-in-law of C is second to the left of A's husband. B who has only one child and B's child is youngest in the family, sits second to the right of A. C, his daughter is B who sits third to the left of T who is immediate neighbour of C. T likes the number which is perfect square. A sits immediate left of V but not an immediate neighbour of C. V and T are siblings. A is grandmother of U. only 2 females in a family. The one who is youngest in the family likes 12. The number, A likes is less than 12. The number which is liked by V is 11 more than the number which is liked by A.

Q5. Which of the following are not facing the centre?

- A. BA
- B. CU
- C. TC
- D. Cannot be determined
- E. None of these

Q6. Which of the following is T's position with respect to B?

- A. Third to the right
- B. Second to the right
- C. Third to the left
- D. Third from either to the right or to the left
- E. None of these

Q7. Which of the following is the combination of female members in the family?

- A. The one who likes 11 and the one who likes 10
- B. The one who likes 12 and the one who likes 10
- C. The one who likes 11 and the one who likes 21
- D. The one who likes 14 and the one who likes 16
- E. Cannot be determined

Q8. Which of the following is true regarding the seating arrangement?

- A. A, B and U are seated adjacent
- B. V, U and T are seated adjacent
- C. There are two persons whose seating arrangement cannot be determined
- D. U is not facing the centre
- E. There are only two persons seated between V and T

Q9. Which of the following is A's position with respect to child of V?

- A. Second to the left
- B. Second to the right
- C. Third to the right
- D. Cannot be determined
- E. None of these

Directions (10-14): Study the following information carefully and answer the below questions

Seven persons i.e. M, N, O, P, Q, R and S are living in a seven storey building with seven different floors such that the ground floor is numbered as 1, the floor just above the ground floor is numbered as 2 and so on till the topmost floor is numbered as 7. They all go to different countries i.e. Italy, China, London, Sri Lanka, Austria, India and Japan. All the information is not necessarily in the same order. M neither goes to Sri Lanka nor lives just above O's floor. P lives below R. N goes to London and lives on floor number 3. Three persons live between the one who goes to India and the one who goes to China. S is from Italy and lives on a floor adjacent to Q's floor. The one who goes to India lives on an even numbered floor. Two persons live between the floors on which the person who goes to Japan and the person who goes to Sri Lanka live. Q neither goes to Japan nor goes to Sri Lanka. O is from Japan and lives above the one who goes to China. O doesn't live on the topmost floor. The person who goes to London lives on a floor below the person who goes to Sri Lanka and Japan. Q doesn't live adjacent to the one who belongs to Sri Lanka and Japan.

Q10. Which among the following statements is true?

- A. Three persons live between the one who goes to Austria and Q
- B. R lives on an even-numbered floor
- C. S lives just below the one who lives just below N's floor
- D. The one who goes to Japan lives above R
- E. All are true

Q11. Four of the following five are alike in a certain way and thus form a group. Which among the following doesn't belong to the group?

- A. P- Sri Lanka
- B. O- India
- C. N-Austria
- D. Q-Japan
- E. M- India

Q12. Who amongst the following lives on an odd numbered floor?

- A. The one who goes to India
- B. O
- C. The one who goes to Italy.
- D. Q
- E. None of the above

Q13. Who among the following lives on the floor 5th?

- A. The one who goes to Italy
- B. R
- C. The one who goes to Japan
- D. The one who lives just above the one who goes to Japan
- E. None of the above

Q14. Which among the following statement is not true?

- A. The one who goes to India lives on the 5th floor
- B. O lives on an even-numbered floor
- C. The one who goes to London lives on an odd numbered floor
- D. No one lives above R
- E. The one who goes to Italy lives on the bottommost floor

Direction (15-18): In the question below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be in variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Q15.

Statements:

Only a few flowers is fruit.

No fruit is food.

All food is vegetable.

Conclusions:

I. All fruit being flower is a possibility.

II. No fruit are vegetable.

- A. Only conclusion I follows.
- B. Only conclusion II follows.
- C. Both conclusion I and II follow.
- D. Neither conclusion I nor conclusion II follows
- E. None of the above.

Q16.

Statements:

Only a few Actors is Actress.

No Actress is Person.

Some Person is Villain.

Conclusions:

I. All Villain Being Actress is a possibility.

II. Some Actress not being Actor is a possibility

- A. Only conclusion I follows.
- B. Only conclusion II follows.
- C. Both conclusion I and II follow.
- D. Neither conclusion I nor conclusion II follows
- E. None of the above.

Q17.

Statements:

All leaf is root.

Only a few root is branch.

No branch is tree.

Conclusions:

I. Some leaf is branch.

II. Some tree are not root.

- A. Only conclusion I follows.
- B. Only conclusion II follows.
- C. Both conclusion I and II follow.
- D. Neither conclusion I nor conclusion II follows
- E. None of the above.

Q18.

Statements:

Only a few blacks is red.

Some red is yellow.

Some yellow is orange.

Conclusions:

- I. No orange is red.
- II. Some red not being black is a possibility.
- A. Only conclusion I follows.
- B. Only conclusion II follows.
- C. Both conclusion I and II follow.
- D. Neither conclusion I nor conclusion II follows
- E. None of the above.

Q19. A number is given as 52847936 respectively if 2 is subtracted from each even digit and 3 is subtracted from each odd digit. Then what will be the sum of digits of new number?

- A. 22
- B. 20
- C. 24
- D. 30
- E. 18

Q20. How many such pairs of letters are there in the word 'INTEGRATE' each of which has as many letters between them in the word as in the English alphabet?

- A. One
- B. Three
- C. Four
- D. None
- E. Two

SEBI Grade A 2022

Phase 1 - Reasoning

Recollected Questions

Reasoning

Direction (1-4) :- Study the following information carefully and answer the below questions
Eight persons- P, Q, R, S, T, U, V, and W are standing in the college queue to get the application form but not necessarily in the same order. The one who gets application at first is numbered as one and the one who gets immediately after him is numbered as two and so on. Only three persons are standing between U and T. T stands on an even number position immediately before R. P stands on an even number position between U and R. The numbers of persons standing before P is the same as after V. W stands before Q but after S where atleast one person stands between them.

Q1. Who among the following person stands at last?

- A. W
- B. The one who stands two persons after P
- C. The one who stands immediately after T
- D. Q
- E. R

Q2. How many persons are standing before P?

- A. More than three
- B. No one
- C. One
- D. Two
- E. Three

Q3. Which of the following statement is/are true?

- I. S is the first person to stand in the queue
- II. Three persons are standing between W and R
- III. T stands immediately before Q

- A. Only I and III
- B. Only III
- C. Only I and II
- D. Only II
- E. None of these

Q4. What is the position of W from the last of the queue?

- A. Sixth
- B. Seventh
- C. Third
- D. Fifth
- E. Fourth

Direction (5-8):- Study the following information carefully and answer the below questions
A certain number of persons are seated in the linear row facing the north direction. N sits fourth to the left of Q. Only two persons are seated between Q and L. The number of persons seated between N and L is the same as between L and P. P sits fourth to the right of S. The number of persons seated between S and P is one more than between M and N. M and P are not immediate neighbours. I sit immediately left of S. Not more than five persons are seated to the right of I. The number of persons seated right of I is one more than to the left of G. G sits second to the left of M. Only three persons are seated between G and T. T neither sits adjacent to Q nor N. More than two persons are seated between T and N.

Q5. How many persons are sitting in the row?

- A. 25
- B. 24
- C. 23
- D. 22
- E. None of the above

Q6. Who among the following person sits to the left of N?

- I. The one who sits immediate right of I
- II. The one who sits second to the right of G
- III. T

- A. Only II and III
- B. Only III
- C. Only I and II
- D. Only II
- E. None of these

Q7. How many persons are sitting between M and S?

- A. 11
- B. 12
- C. 13
- D. 10
- E. 09

Q8. What is the position of S from the right end of the row?

- A. Seventh
- B. Fifth
- C. Sixth
- D. Eighth
- E. None of the above

Direction (9-12) Study the following information carefully and answer the below questions
Eight persons- P, Q, R, S, T, U, V, and W were born on different dates either 6 or 19 of different months- January, April, June, and July of the same year but not necessarily in the same order. S was born two months before P both were born on an even-numbered date. Only two persons were born between P and U. T was born three months before R. R was not born in April. The number of persons born before R is the same as after W. Q was born before V. Q was not younger than P.

Q9. How many persons were born between Q and V?

- A. Two
- B. Three
- C. Four
- D. Five
- E. None

Q10. Who among the following person was born immediately before P?

- A. The one who was born immediately after S
- B. The one who was born two persons before U
- C. V
- D. R
- E. W

Q11. Four of the five among the following are similar in such a way to form a group, which one of the following doesn't belong to the group?

- A. Q
- B. W
- C. S
- D. The one who was born two persons after S
- E. The one who was born immediately before U

Q12. On which of the following Date and months does W was born?

- A. 19th June
- B. 19th April
- C. 6th April
- D. 19th January
- E. 6th July

Q13. In the given number "9657153428" the position of the first and second digits are interchanged, similarly, the position of the third and fourth digits are interchanged, and so on till the end. Then, which of the following digit will be second to the left of the digit which is a fifth from the left end?

- A. 9
- B. 7
- C. 5
- D. 6
- E. 4

Direction (14-17) :- Study the following information carefully and answer the below questions. Eight persons – P, Q, R, S, T, U, V and W are sitting around the circular table. Four of them are facing towards the table and four of them are facing outwards the table. Three persons sit between V and R. Both R and V are facing the opposite directions to each other. S sits second to the right of R. W faces the one who sits second to the right of V. U sits third to the left of W. Neither R nor S sits an immediate neighbour of Q. T faces the one who sits second to the left of Q and both are facing the same direction. P facing outwards and the immediate neighbours of P facing the opposite direction to P.

Q14. Who sits fourth to the right of P?

- A. U
- B. W
- C. The person facing W
- D. The one who sits opposite to P
- E. None of these

Q15. In which of the following statement the third person doesn't sit exactly in the middle of first and second person as per the final arrangement?

I). UPQ

II). TUV

III). VRW

- A. Only II
- B. Only I and III
- C. Only III
- D. All I, II and III
- E. Other than the given option

Q16. How many persons sit between Q and the one who faces S when counted from the right of Q?

- A. Two
- B. Three
- C. Four
- D. Five
- E. Other than the given option

Q17. Who among the following one sits second to the left of the one who sits fifth to the left of U?

- A. the One who faces R
- B. the One who faces P
- C. the One who faces S
- D. the One who faces W
- E. Other than the given option

Direction (18-19) :- Each of the following questions consist of a statement followed by two arguments I and II. Select whether the argument(s) is/are followed or not.

Q18. Statement: The employees of this public organisation have decided to oppose government control and their push towards cooperative actions with other organisations.

Argument I: Government have no control over its organisations and their actions.

Argument II: An public organisation functions better without cooperative decision making.

- A. If only argument II is strong
- B. If only argument I is strong
- C. If either argument I or II is strong
- D. If neither argument I nor II is strong
- E. If both argument I and II are strong

Q19. Statement: Should those with tattoos on visible body parts, irrespective of their cultural values, be barred from public appearance?

Argument I: Yes, Public is not comfortable with drawings on natural human skin.

Argument II: Yes, people with tattoos looks disfigured.

- A. If only argument II is strong
- B. If only argument I is strong
- C. If either argument I or II is strong
- D. If neither argument I nor II is strong
- E. If both argument I and II are strong

Q20. If the consonants of the word "RESERVATION" are changed to the immediate previous letter and vowels are changed to the immediate next letter as in the English alphabetical series then how many letters are repeated?

- A. More than three
- B. Three
- C. None
- D. Two
- E. One

SEBI Grade A 2024 Phase 1 - Reasoning Recollected Questions

Reasoning

Direction (1-4): Study the following data carefully and answer the questions accordingly. M certain number of persons are sitting in a straight line and facing north. No two known persons sit adjacent to each other. Only four persons sit between M and X who sits third to the right of F. Only five persons sit between X and D. Only four persons sit between D and S who sits three places away from R. R sits at one of the extreme ends. The number of persons sitting between M and F is the same as that between R and D. C sits fifth to the right of F.

Q1. How many persons are sitting in the row?

- A. 22
- B. 20
- C. 23
- D. 18
- E. 19

Q2. Who among the following persons sits third to the right of C?

- A. F
- B. S
- C. X
- D. M
- E. No one

Q3. What is the position of S with respect to F?

- A. Seventh to the left
- B. Fifth to the right
- C. Seventh to the left
- D. Eighth to the left
- E. None of these

Q4. How many persons sit between C and D?

- A. As many persons sit to the left of R
- B. As many persons sit to the right of D
- C. Seven
- D. Nine
- E. Five

Direction (5-8): Study the following data carefully and answer the questions accordingly. Eight persons - P, Q, R, S, T, U, V and W are placed on the square table such that four persons are placed in the corners and facing inside while the four persons are placed in the middle of the sides and facing outside. Each person likes different musical instruments such viz., Flute, Violin, Cello, Sitar, Banjo, Drums, Guitar and Piano. All the information is not necessarily in the same order. P is placed third to the left of Q who likes Cello. P does not like Guitar. Two persons are placed between Q and R. Q is placed opposite to the one who likes Piano. S likes Flute and faces W who likes Violin. Neither R nor Q is placed adjacent to S. U is placed to the

immediate left of the person who likes Banjo. The one who likes Drums sits second to right of T. V who does not sit in the middle of the sides sits second to left of the one who likes Guitar.

Q5. Who sits third to the left of W?

- A. R
- B. T
- C. P
- D. V
- E. U

Q6. Who sits fifth to the right of U?

- A. The one who likes Sitar
- B. The one who likes Cello
- C. The one who likes Drums
- D. The one who likes Banjo
- E. The one who likes Flute

Q7. Which of the following statement is/are true?

- I. R sits immediate left of T
- II. S sits second to left the one who likes Cello
- III. V faces W
- A. Only I
- B. Only III
- C. Only II and III
- D. Only II
- E. None is true

Q8. Four of the following five are alike in a certain way based on their positions in the above arrangement and so form a group. Which is the one that does not belong to that group?

- A. R
- B. T
- C. P
- D. V
- E. U

Q9. If 2 is added to each prime digit and if 4 is subtracted from the remaining digit of the number "256749768", then the digits are arranged in ascending order from left to right, what will be the difference between the digits that are third from the right and fifth from the left in the new arrangement?

- A. 4
- B. 3
- C. 2
- D. 5
- E. 1

Q10. The statement is given followed by three inferences A, B, and C. You have to consider the statement to be true even if it seems to be at variance with commonly known facts. You have to decide which of the given inferences, if any, follow from the given statement. Although sheepherding is an older and more beloved occupation, shepherds never caught the attention of American filmmakers the way cowboys did.

(A) There have been more American films about cowboys than about shepherds.

(B) Films about shepherds were popular before films about cowboys.

(C) Cowboys are generally younger than shepherds.

- A. Only A follows
- B. Only C follows
- C. Only B follows
- D. Only A and C follow
- E. Only A and B follow

Q11. In the question below, a situation is given, followed by statements that may or may not be possible reasons for the situation. Select the option that best describes the reason for the situation in the question.

The International Olympic Committee (IOC) is evaluating various factors such as infrastructure, legacy plans, and sustainability for the upcoming Olympic Games. It has received applications from Country A and Country D to host the Olympic Games. The authority is currently reviewing all submissions and has not yet announced its decision on which country will be awarded the hosting rights.

- A. Country A was chosen because it offered a higher bid amount compared to Country D.
- B. Country A had a smaller population than Country D, making it a more manageable location for the Games.
- C. Country A's proposal included a comprehensive plan that ensured the inclusion of diverse sports facilities, advanced security measures, and extensive community engagement.
- D. Country A has a history of hosting major international events, which made it easier to choose for the Olympics.
- E. None of these

Direction (12-15): Study the following data carefully and answer the questions accordingly. Six persons viz. A, B, C, D, E, and F are sitting in a linear row such that all of them are facing towards north, but not necessarily in the same order. They also like different vegetables. F sits second from one of the extreme ends. Only one person sits between D and F. F does not like both Pumpkin and Potato. D does not like Potato and C does not like Pumpkin. As many persons sit to the right of D as to the left of C. The one who likes Bottle gourd sits fourth to the left of the one who likes Spinach, who sits at an extreme end. Neither B nor C likes Spinach. B sits to the right of A, who does not sit adjacent to D. A likes Brinjal. The one who likes Pumpkin does not sit near the one who likes Potato.

Q12. Who sits to the immediate left of the one who likes Pumpkin?

- A. The one who likes Spinach
- B. The one who likes Brinjal
- C. The one who likes Capsicum
- D. C
- E. E

13. Who sits third to the right of C?

- A. E
- B. B
- C. F
- D. A
- E. D

Q14. How many persons are sitting between the one who likes Capsicum and Brinjal?

- A. 4
- B. 2
- C. 3
- D. None
- E. 1

Q15. How many persons are sitting to the left of the one who likes Potato?

- A. 4
- B. 2
- C. 3
- D. None
- E. 1

Direction (16-18): Study the following data carefully and answer the questions accordingly. Eleven persons P, Q, R, S, T, U, V, W, X, Y and Z are in the same family of three generations. Only three couples are there in the family. Z is the sister of P. Both R and S are brothers while R is the brother-in-law of T who does not have any siblings. Q is the mother-in-law of U who is the mother of X. Both V and W are sons of T and U respectively. S is father of V. P is father-in-law of T. X is the daughter of R. T has one daughter.

Q16. How is Y related to X?

- A. Brother
- B. Cousin
- C. Aunt
- D. Mother
- E. Sister-in-law

Q17. How Q is related to X?

- A. Brother
- B. Uncle
- C. Grandfather
- D. Grandmother
- E. Sister

Q18. How many females are there?

- A. Five
- B. Seven
- C. Six
- D. Four
- E. None of these

Q19. How many such pairs of letters are there in the word “IMPOSING”, each of which has as many letters between them in the word as in the English alphabet (both forward and backward)?

- A. 3
- B. 2
- C. 4
- D. 1
- E. More than 4

Q20. If a three-letter meaningful word can be formed by using the second, fourth and tenth letters from the word “TRIANGULATION”, then what is the last letter from the left end of the newly formed word? Mark X as your answer, if more than one word is formed. Mark Z, if no meaningful word can be formed.

- A. R
- B. Z
- C. X
- D. T
- E. A

SEBI Grade A 2025 Phase 1 - Reasoning Recollected Questions

Reasoning

Directions (1-4): Answer the questions based on the information given below.

Eight persons P, Q, R, S, T, U, V, and W, sit in two linear parallel rows - Row 1 and Row 2. Row 1 is to the north of Row 2. The people in Row 1 face towards the south direction, and the people in Row 2 face towards the north direction. The people in both rows face each other. The person who sits in row 1 likes different Water bodies among Lakes, Rivers, Creeks and oceans. The person who sits in row 2 likes different Water bodies among Pond, Wetlands, Glaciers and Bays.

S, who likes Creeks, faces the one who likes Pond. U sits second to the right of the one, who likes Pond. The one who faces U sits third to the left of V. The one who likes Bays sits immediately left of P. W sits second to the right of R. W doesn't like Wetlands. The one who likes Glaciers doesn't face the one who likes Lakes. Only one person sits between Q and the one who likes Rivers.

Q1. Four of the following five are alike in a certain way and hence form a group. Find the one that doesn't belong to that group.

- A. The one who likes Rivers
- B. The one who likes lakes
- C. The one who likes Bays
- D. The one who likes Glaciers
- E. The one who likes Wetlands

Q2. Who among the following faces the one who likes Glaciers?

- A. S
- B. P
- C. The one who is immediate right of T
- D. The one who likes Rivers
- E. None of these

Q3. As many persons sit to the left of ____ as to the right of ____.

- A. V, W
- B. P, T
- C. R, V
- D. P, U
- E. None of these

Q4. Which among the following statements is correct?

- A. The one who likes Bays sits 3rd left of W.
- B. The one who likes the ocean faces R
- C. V sits third left of T
- D. Both A and B
- E. Both B and C

Q5. If only one four-letter meaningful English word is formed by using the 1st, 3rd, 6th and 9th letters (from the left end) of the word "MULTILATERAL", then which of the following will be the third letter of the word formed from the right end?

If more than one such meaningful word is formed, mark 'Y' as your answer.

If no meaningful word is formed, mark 'Z' as your answer.

- A. L
- B. M
- C. T
- D. Y
- E. Z

Directions (6-9): Study the following information carefully and answer the questions below.

Six persons- A, B, C, D, E, and F are attending the meeting on two different dates either 9 or 23 of three different months- January, April, and June of the same year. They attend in different cities - Delhi, Chennai, Jaipur, Kolkata, Shimla, and Mumbai. All the information is not necessarily in the same order.

A attends two persons before the one who attended in Jaipur. At least three people attend after A. Only two people attend between A and D. The number of persons attending before D is the same as the number of persons attending the meeting after the one who attends in Delhi. F attends immediately after the one who attends in Mumbai. F neither attends in Jaipur nor in Kolkata. C doesn't attend meeting on the prime number date, but after A. E neither attends in Delhi nor Jaipur. B attends immediately before the one who attends in Shimla.

Q6. Who among the following person attend the meeting on January 23?

- A. B
- B. A
- C. F
- D. E
- E. None of these

Q7. In which of the following cities does D attend the meeting?

- A. Jaipur
- B. Kolkata
- C. Shimla
- D. Delhi
- E. Chennai

Q8. How many people attend before the one who attends the meeting in Shimla?

- A. One
- B. Two
- C. Three
- D. None
- E. More than three

Q9. Which of the following statements is/are correct?

- A. E attends two persons before F
- B. Only two persons attend between C and F
- C. No one attends after D
- D. Both (a) and (b)
- E. Both (a) and (c)

Directions (10-12): Study the following information carefully and answer the questions given below.

Seven persons, T, U, V, W, X, Y, and Z, are of different weights. X is heavier than V, who is heavier than both Y and U. T is heavier than both Y and W. The number of persons heavier than Y is the same as lighter than Y. V is lighter than T, who is not the heaviest person. Only two persons weighed between V and Z, who is heavier than W.

Q10. How many people are lighter than U?

- A. One
- B. Three
- C. Two
- D. None
- E. Four

Q11. How many persons weighed between T and Z?

- A. Three
- B. Two
- C. One
- D. None
- E. More than Three

Q12. If the weights of V and U is 72 kg and 60 kg, respectively, then what is the possible weight of Y?

- A. 75
- B. 59
- C. 74
- D. 65
- E. 55

Q13. Find the odd one out:

- A. DBF
- B. VTX
- C. MKO
- D. NPR
- E. KIM

Q14. How many such pairs of digits are in the number “164975324” which has as many digits between them as per the natural number system (both forward and backward direction)?

- A. None
- B. One
- C. Two
- D. Three
- E. More than three

Directions (15-18): Answer the questions based on the information given below.

Six boxes A, B, C, D, E, and F are kept one above another in a single stack. Each of these boxes contains different Colours viz. Blue, Red, Pink, Yellow, White and Purple. All the information is not necessarily in the same order.

More than two boxes are kept below the box that contains the purple colour. Only one box is kept between box C and the box that contains the Purple colour. Box F is kept immediately above box C. The number of boxes kept above box F is one more than the number of boxes kept below the box that contains the pink colour. Box B is kept three boxes above the box that contains the pink colour. Either box F or box B contains the white colour. The box that contains the yellow colour is kept two boxes above box A. Neither box A nor box D contains the blue colour.

Q15. Which among the following boxes is immediately above the box that contains the purple color?

- A. Box C
- B. Box A
- C. Box E
- D. Box D
- E. None of these

Q16. Box A contains which of the following colours?

- A. Pink
- B. Red
- C. Purple
- D. Blue
- E. Yellow

Q17. How many boxes are kept between Box E and the box that contains the pink colour?

- A. One
- B. Two
- C. Three
- D. Four
- E. More than four

Q18. Which among the following statements is correct?

- A. Only two boxes are between B and C
- B. Only one box is above box F
- C. Box C is kept immediately above A
- D. Box D contains the Yellow colour
- E. All are incorrect

Directions (19) The question below has a statement followed by two conclusions numbered I and II. On the basis of the information given in the statement, you have to find an option that gives the best conclusion for the given statement.

Q19.Statement:

Any effective system to control urban air pollution must rely on continuous real-time monitoring of emissions. Measures to improve air quality, to be effective, must show results immediately after implementation, and conducting a complete trial of such measures before actual enforcement is not possible.

Conclusions:

I. Measures taken to control urban air pollution cannot be guaranteed to show immediate success when first implemented.

II. Measures to control urban air pollution will fail to improve air quality when they are implemented for the first time.

- A. Only I follows
- B. Either I or II follows
- C. Both I and II follow
- D. Only II follows
- E. None follows

Directions (20) The question below has a statement followed by two conclusions numbered I and II. On the basis of the information given in the statement, you have to find an option that gives the best conclusion for the given statement

Q80.Statement:

Extremely fast delivery services offered by 10-minute delivery apps rely heavily on a dense network of delivery partners and advanced route-optimisation algorithms. Such rapid delivery models have been shown to increase road accident risks in cities where they operate extensively. QuickCart is a 10-minute delivery app that operates only in small towns with very low traffic density and strictly enforces speed limits. However, delivery partners associated with QuickCart have reported a high number of road accidents over the past two years.

Which of the following can be validly inferred from the above statement?

Inferences:

I. Road accidents among delivery partners are always caused by high traffic density.

II. Road accidents can have causes other than traffic density in the case of 10-minute delivery apps.

III. Factors other than dense traffic may contribute to accidents involving 10-minute delivery services.

- A. II only
- B. III only
- C. Both II and III follow
- D. Both I and II follow
- E. None of the above

Answer Key

Question	Answer	Question	Answer	Question	Answer
1	D	2	C	3	C
4	C	5	E	6	D
7	B	8	A	9	E
10	C	11	A	12	D
13	D	14	C	15	C
16	B	17	C	18	E
19	A	20	C		

What Next?

- 1. Identify Right Source:** Follow the best study resources (books, online courses, videos, etc.) for each topic on the list. Do not follow multiple sources for the same topic but rather follow good sources multiple times.
- 2. Topic Prioritization:** Review the document to identify key topics that require special attention. Prioritize your study schedule based on the significance of each topic in the syllabus. Ensure a balanced approach, allocating more time to critical subjects.
- 3. Width of Syllabus:** Merely going through the syllabus is not enough; Regularly revisit the document to reassess what topics actually need to be covered.
- 4. Depth of Understanding:** Recognize the varying depths at which topics should be covered. While some concepts demand a broad understanding, others require a more in-depth analysis. Tailor your study approach, accordingly, allocating more time to complex topics that demand deeper comprehension.

About Us

We are a passionate team of experienced professionals who understand the challenges of aspirants preparing for government jobs. Our vision is to *"create a nurturing ecosystem for the aspirants so that they can feel safe, guided, and mentored."*

Anchit Garg

Our Mission

At EduTap, our mission is to empower students to reach their full potential by providing comprehensive guidance, expert mentorship, and a supportive community. Since our start in 2016, we've grown into a trusted platform for aspirants, delivering exceptional results in government recruitment exams and certifications year after year.

Why Choose Us

Our **mentors walk with you every step of the way**, providing personalized guidance and insightful advice.

Our courses offer a **comprehensive curriculum** that covers all aspects of the exam, from theoretical knowledge to practical application.

We have a **track record of helping students (even if they are not our paid subscribers)** achieve their dreams, with consistently high results in leading government exams.

We help you connect with a **community of like-minded individuals** who share your goals and support your journey.
